

**pooBoy v2.0 – VSTi**

**Copyright 2007 Pontonius**

---

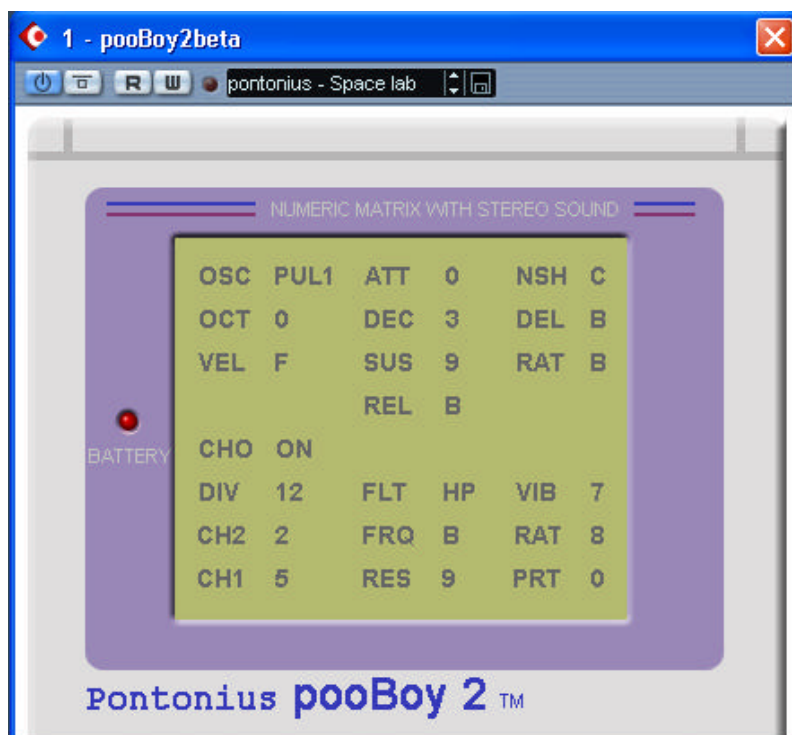

## Installing this software

Unzip and place the files in your “vstplugins” folder. Then start your host application and let it scan for the new plugin.

---

## How to use this software

There are three ways of changing the matrix of the Pooboy 2. Either you can use your mouse to select variables or use the direction buttons on your keyboard. Both ways works perfectly in real time as well. The third and last way is to use you host application automation mechanism to control the input. Read the host application manual to find out how to do this.

<b>OSC</b> – Oscillator	[pulse1 to 4, noise]
